Re: Work Plan Revision for Marion/Bragg

Dear Bernie:

I am writing to confirm the telephone conversation of Monday, July 16, between the two of us, Karen Martin, and Melissa Murphy, regarding the work plan revision for the Marion/Bragg Superfund site.

As we agreed, the work plan will reflect our discussed changes to the Statement of Work included with the Work Assignment Form. The following activities will be included in the new scope of work:

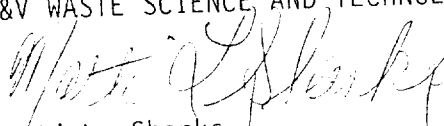

1. finalization of the revised community relations plan;
2. production and distribution of the Consent Decree fact sheet;
3. development, production and distribution of two additional fact sheets at different intervals of remedial action;
4. support for the public meeting and public comment period on the Consent Decree;
5. support for two additional availability sessions or public meetings at different intervals of remedial action;
6. placement of a newspaper advertisement announcing the public meeting and public comment period on the Consent Decree;
7. placement of two additional newspaper advertisements to announce additional availability sessions/public meetings;
8. continued maintenance of the site mailing list and provision of labels for every site mailing;
9. continued maintenance of the site information repository.

Please do not hesitate to call if you have any questions.

Sincerely,

B&V WASTE SCIENCE AND TECHNOLOGY CORP.
